

Newly Released Discount Coupons and Callback Buttons Help Consumers Safely Find Cheap Prescription Drugs

By introducing discount coupons on prescription drugs combined with callbacks from verified sources online pharmacy guide, RefillPill.com, connects shoppers to licensed pharmacies.

([PRWeb](#)) December 14, 2005 -- RefillPill.com, a leading online destination to find medication, has released an online discount coupon on prescription drugs from Canada. By introducing discount coupons on prescription drugs combined with callbacks from verified sources online pharmacy guide, RefillPill.com, connects shoppers to licensed pharmacies. The coupon is available on www.RefillPill.com/index.html. The coupon is designed for online shoppers who are looking to buy cheap drugs from legitimate sources. Consumers get an online discount coupon on their preferred medication as well as a callback from a licensed pharmacy at zero cost.

Everyday in the United States there are patients who pay for their prescription drugs entirely out-of-pocket. Lack of health insurance extends beyond the poor and elderly to the working class and the self-employed. But they all share one thing in common - they pay too much for their drugs, especially when they can be mailed to their doorstep for half the cost. So why aren't more Americans buying their medications from Canadian pharmacies where they can save 40-70%?

Unfortunately, research indicates that they don't know how to do it safely, and as a result inexperienced consumers buy from online sources without a valid prescription. This practise is not authorized by the FDA. Consumers who purchase drugs without a prescription run the risk of receiving counterfeited products. To be on the safe side RefillPill.com suggests considering the following special offer on how to order drugs easily and confidentially from a licensed pharmacy in Canada.

1. Go to www.refillpill.com and fill out the coupon-survey for free.
2. Request a call from our call center agents to take advantage of a \$10.00 discount on your first order.
3. Mail or fax your valid prescriptions – Toll Free - directly to a licensed and legitimate Canadian online pharmacy.
4. Get a check for \$50.00 for each referral who spends more than \$100 on the first purchase.

This special offer provides you with savings up to 60% on Fosamax, Zocor, Norvasc, Pravachol and 6000 other brand and generic medications! Free shipping included on all orders over \$39.00.
