

## Expand Your Horizons at No Additional Charge

*AccuConference now offers [conference calls](#) from Canada, Alaska, Hawaii, and Puerto Rico at no additional charge.*

([PRWeb](#)) July 11, 2006 -- AccuConference now offers [conference calls](#) from Canada, Alaska, Hawaii, and Puerto Rico at no additional charge.

Providing [conference call](#) access at cost effective rates is fundamental to the AccuConference customer-centric philosophy. This new pricing feature is consistent with their promise of providing world-class conference call solutions, sustained by high quality customer support, at competitive prices.

With this new feature, companies and organizations with North American operations can make conference calls at the same low rates they currently enjoy throughout the continental United States.

“This latest feature aligns with our philosophy of providing cost effective solutions to our customers,” says Rob Anderson, VP of Marketing. “Offering competitive pricing on conference calls supports our customers who operate in the global marketplace. Not only do we provide high quality audio and web-conferencing solutions, but we’re providing them in a way that positively impacts the customer’s bottom line.”

Same rate pricing for conferencing from Canada, Puerto Rico, and all fifty states is just one of the many competitively priced offerings from AccuConference. Toll-free, flat-rate, operator assisted services, and volume pricing options are also available for audio and web-conferencing needs.

World-class products, combined with high quality customer service, make AccuConference the leader among communication service providers. High standards for quality, convenience, and performance make it the only choice when it comes to selecting audio and [web conferencing](#) solutions.
