

Acousticlobe's Patent Pending Earbud Covers Add Glitter Effects

Acousticlobe, a new company currently seeking outside investment opportunities, is pleased to announce the release of Lobie Glitz earbud covers.

Hiram, GA ([PRWeb](#)) February 19, 2008 -- Acousticlobe has added glitter filled choices to their line of Lobie™ earbud covers. [Lobie Glitz](#)™ features subtle pastels with shimmering glitter. Color selections include pixie, pink, pearl and purple. Lobie™ earbud covers provide interchangeability with most earbuds with the exception of canal type of headphones and have been successfully tested with 21 earbuds from the following manufacturers: Apple, AKG, Altec, Coby, Creative, Sony, Panasonic, JVC, Sandisk, LG, Buslink, Koss, Sennheiser, V-Moda, and Philips. The patent pending Lobie™ plus earbud combination results in an ultra comfortable natural listening experience. Recent reviews by [The Consumer's Corner](#) and Neo-Fight.tv provide consumers with objective opinions of the product's value at \$12 per pair.

Tom Dean, President and Chief Executive Officer of Acousticlobe, commented, "Since our launch in October, 2007, we have shipped Lobies across the United States and internationally in 9 other countries. Online sales overwhelmingly suggest that consumers choose superior comfort over other features when shopping for headphones. Most people end up owning multiple pairs of headphones looking for a pair that not only feels great but sounds great, is affordable, durable and portable. It's difficult to find the ideal portable headphone. Using the Lobie concept as my basis, I committed toward the design of a more universal type of headphone. There are situations or listening environments when one type of headphone is a better choice over another. However, there is room in the market for something new and Acousticlobe is near to offering consumers headphone designs that I believe will be an ideal all around product of choice. "

Currently, Acousticlobe is pursuing additional patent pending headphone product designs. Announcements regarding these products are anticipated soon. What can be disclosed at this time is that Acousticlobe has trademarked the new products and each will be identified as a PASGEAR™ device, which stands for Passive Acoustic Support Gear. PASGEAR™ products are reported to be designed according to the following design standard:

Acousticlobe PASGEAR™ design standard:

1. Unobtrusive Secure Fit
2. Universal Comfort
3. Quality Acoustics
4. Meet preceding 3 objectives without expense to the other

PASGEAR™ products may include a redesigned Lobie™ earbud cover product, a tethered headphone as well as a wireless version. Mr. Dean states that the PASGEAR™ device will be quite unlike other products currently on the market. Additional details regarding the PASGEAR™ design standard and specific products are expected in future product announcements.

Acousticlobe Incorporated is currently seeking outside investment opportunities. All opportunities may be considered for the license or sale of Acousticlobe intellectual property. Acousticlobe products are currently sold online at www.MyLobie.com as well as a number of online resellers. The Lobie™ Glitz line can be found at

www.MyLobie.com/earbudcovers.asp. Acousticlobe Incorporated was founded in 2006 with the development of Lobie™, "earbud's new accessory".

Lobie™, Lobie™ Glitz, PASGEAR™ and Passive Acoustic Support™ are trademarks of Acousticlobe Incorporated. All other marks belong to their respective owners.
